

# City of Santa Clarita Earth Arbor Day Festival

Presented by 

Santa Clarita Celebrates

## Earth Arbor Day

In conjunction with this worldwide effort, the City of Santa Clarita will bring together thousands of residents at **Earth Arbor Day on Saturday, April 29, 2017 from 10:00 am to 5:00 pm and Sunday, April 30, 2017 from 10:00 am to 4:00 pm at Central Park** to educate the community about the things that residents can do to protect our planet.

Earth Arbor Day is presented by the City of Santa Clarita and the SCV Family of Water Suppliers, and is a fun, festive and FREE way for residents of all ages and environmental awareness levels to learn about eco-friendly products, programs, and local organizations dedicated to protecting and preserving the environment.

This year's Earth Arbor Day celebration will be combined with the KHTS Santa Clarita Home and Garden Show, the Emergency Expo, and the KHTS Arts and Crafts Fair at Central Park. The Home and Garden Show will feature over 400 vendors. Most are local businesses involved in our valley for many years. The vendors have a commitment to providing the best possible advice and guidance. Discover the latest in solar energy, pool and backyard design, and home remodeling. For more information about the Home and Garden Show visit: [SantaClaritaHomeandGardenShow.com](http://SantaClaritaHomeandGardenShow.com).

The City has been at the forefront of eco-friendly green practices since its inception and this year at Earth Arbor Day, the City will accept its 27th consecutive Tree City USA award from the National Arbor Day Foundation. As part of the City's acceptance of the award, we will commit to planting more trees throughout the community in the coming year to improve air quality, reduce greenhouse gases and provide shade and habitat.

Please join the City of Santa Clarita at Central Park on **Saturday, April 29 and Sunday, April 30** to renew your commitment to reduce, reuse, and recycle – after all we are sharing one world, and it is every person's responsibility to care for and protect it for generations that follow.
