Digital Photography (Adult)

Basics I: The essentials of digital photography basics are taught in an expanded three-meeting format. Students will learn the various functions and modes of the digital camera and the creative applications of that knowledge. Several in-class shooting demonstrations will reinforce the student's knowledge of depth of field, freezing motion and depicting motion. Students must have a digital point and shoot, hybrid, or DSLR with modes available for class use.

Basics II: The essentials of visual communication through the digital photography medium. Learn the basics of composition, elements of design and lighting to achieve creative results. Bring camera to class.

Basics III: Explore the visual effects of various focal lengths and filters and their creative applications. Students will learn how to create dramatic perspectives through selection of lens focal length from wide angle to telephoto. The use of filters to enhance image quality and creativity will be discussed. Bring camera to class. \$5 material fee payable to instructor.

Instructor: James Mahoney **Min/Max:** 10/20

Date	Class	Time	Fee/Wks	Location
Tu-6/13	Basics I	7:00-9:30 pm	\$85-3 wks	VGP
Tu-7/11	Basics II	7:00-9:30 pm	\$65-2 wks	VGP
Tu-7/25	Basics III	7:00-9:30 pm	\$65-2 wks	VGP
Tu-6/13	Basics I, II, III	7:00-9:30 pm	\$195-7 wks	VGP

Adobe Photoshop (Adult)

Requirements: Any version of Photoshop CS or CC. No Elements. Lightroom briefly covered. Personal laptop with software installed.

Basics I: Class will cover basic photo enhancements to achieve high impact work. Students will learn organization, nondestructive editing and the creative possibilities within Photoshop.

Basics II: This course covers the ability to retouch faces and change backgrounds and objects within the image; cleaning up images and removing unwanted objects; a good understanding of all the tools available in the tool bar and how to use them.

Basics III: Explore Adobe Photoshop and find some of its hidden gems like panoramic photos, High Dynamic Range (HDR), creating gigapixel images (super high resolution) and creating masks/adjustment layers. Learn important tools like advanced brushes, extreme layering, shortcuts and the ability to create an unquestionably professional look or style for any image. Bring laptop to class with Adobe Photoshop installed.

Instructor: Tyler Lane **Min/Max:** 5/15

Date	Class	Time	Fee/Wks	Location
